ABOUT

Established in 2014, Sahabat Inti Solusindo is a company with core business in providing a solid package solution and services for industrial automation. We design, install and commissioning to ensure our customer achieving their objective on efficiency and effectiveness.

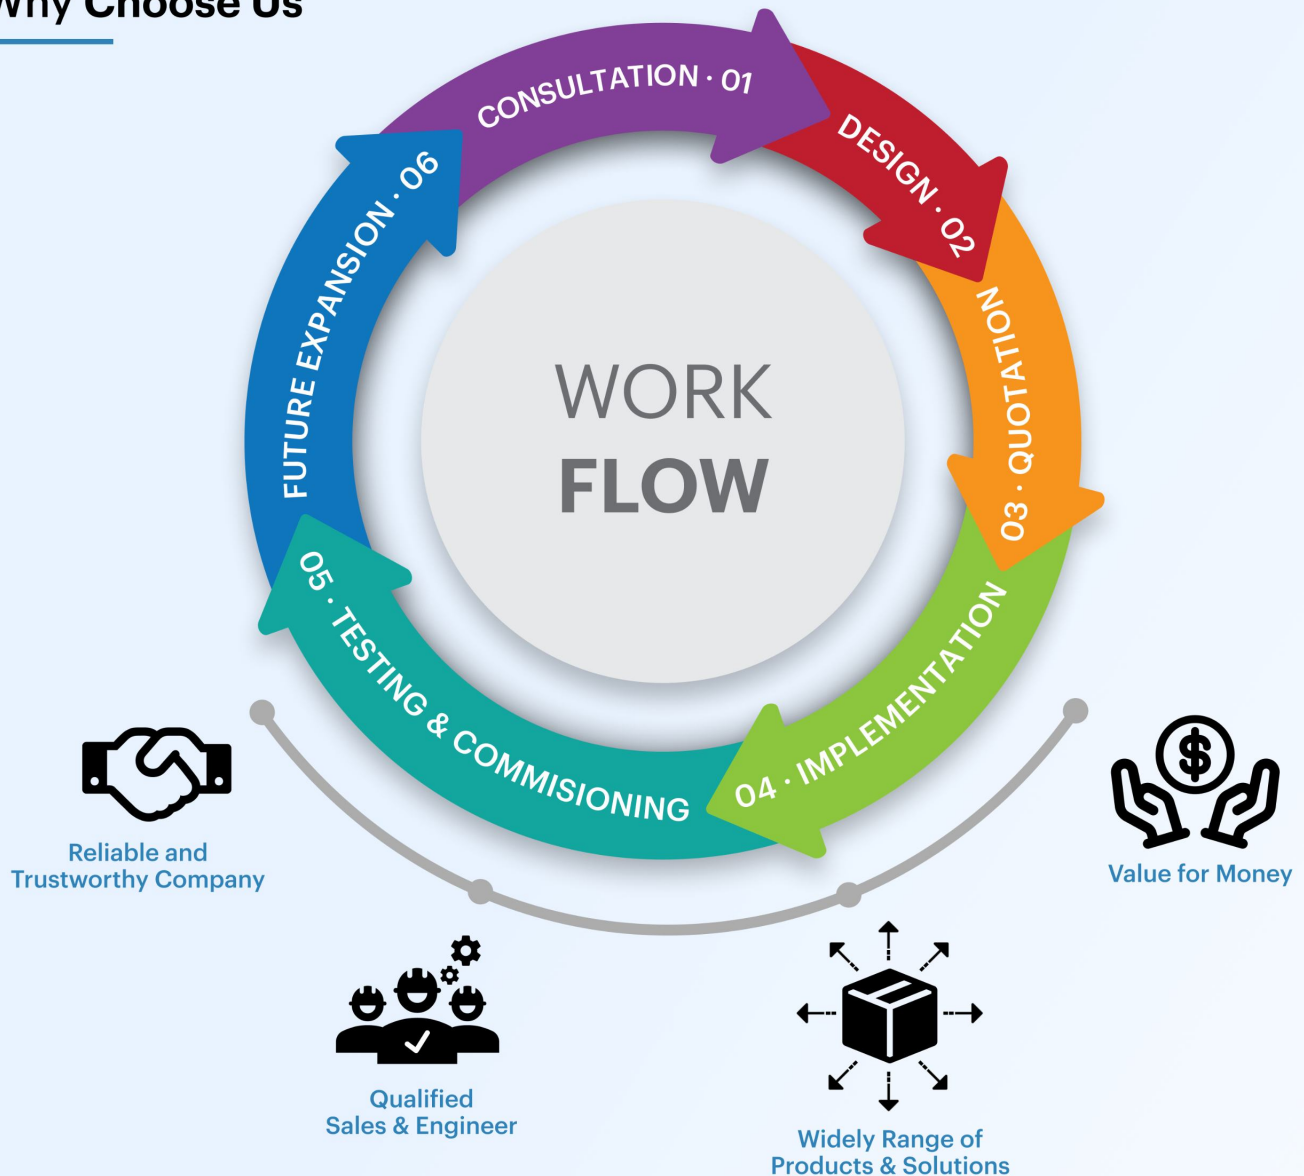

Vision

*To be number one reliable partner
in electrical and automation*

Mission

*To deliver the best solution and services to
exceed customer's requirements by providing
a professional consultation and services.*

Why Choose Us

“Your Reliable Partner”

SERVICES

INTERNET OF THINGS (IOT)

Consultation, design, implementation complete from hardware to software. Covered of energy, production lines, utility, assets, warehouse, etc.

ENERGY SAVING SOLUTION

Provide you with solutions to improve energy efficiency and carbon reduction. Our solutions are custom based on customers needs.

AUTOMATION

SCADA, PLC system, vision system, inverter system, solar panel system, etc.

SURVEILLANCE SYSTEM

CCTV, access system, visitor management system, networking.

GENERAL SUPPLY

Genuine products for mechanical, electrical and automation from various brand.

SUPPORTING BRAND

RA Rockwell Automation
PLC, Inverter and Software Solutions

.SUCO

Industrial Flow Sensor (compressed air & gas, liquids & steam),
Dew Point Sensor, Portable Leak Detection

socomec

Electricity Specialist On Power Switching And Monitoring

Panasonic

PLC, Servos and Drives, Industrial Sensor, HMI,
Laser Marking, Lighting Solution

INOVANCE

HITACHI
Inspire the Next

Schneider Electric

WEINTEK

HIKVISION

SIEMENS
Ingenuity for life

ABB

MW MEAN WELL

EVERLIGHT

Nidec
All for dreams

OMRON

We handled hundreds

VALUABLE CUSTOMER

Automotive Industry

Consumer Goods Industry

Chemical Industry

General

of projects and trusted by various segment of customers

PROJECT REFERENCE

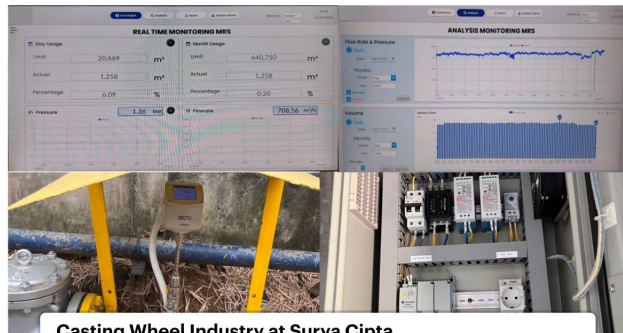

INTERNET OF THINGS

Automotive Industry at MM2100

ENERGY MONITORING SYSTEM

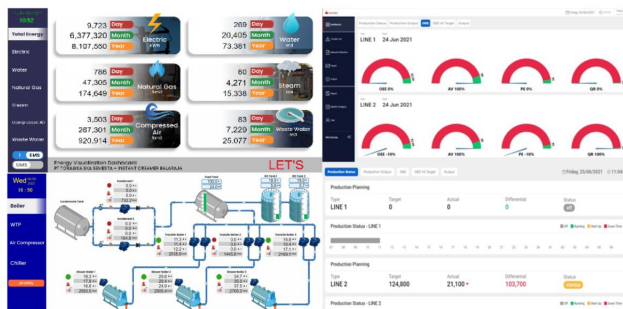

- Electric, water, compressed air
- Real time web based
- Auto reporting

Casting Wheel Industry at Surya Cipta

ENERGY MONITORING SYSTEM

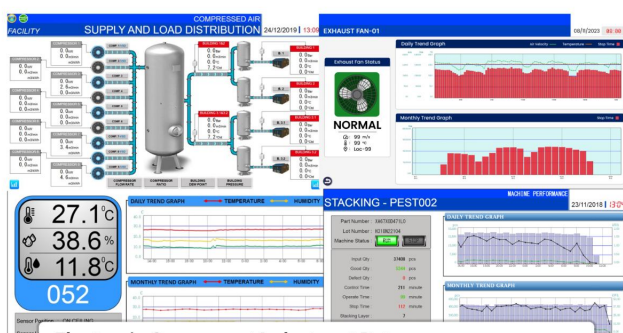

- Natural Gas Monitoring

FMCG Industry at Cikupa

IOT SYSTEM

- Energy, utility, production machine, OEE
- Integration with various brands of instruments
- Real time web based

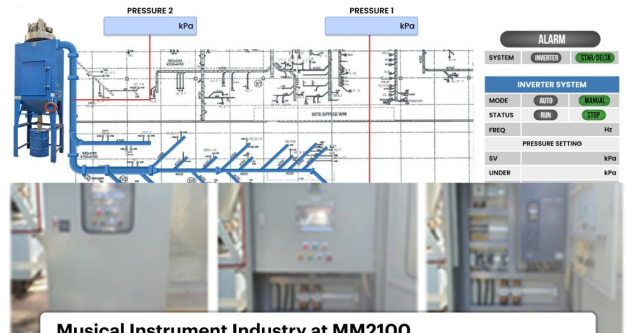

Electronic Component Industry at Batam

IOT SYSTEM

- Energy, utility, production machine, OEE,
- Real time web based
- Auto reporting

ENERGY SAVING & CARBON NEUTRAL

Musical Instrument Industry at MM2100

ENERGY SAVING FOR DUST COLLECTOR

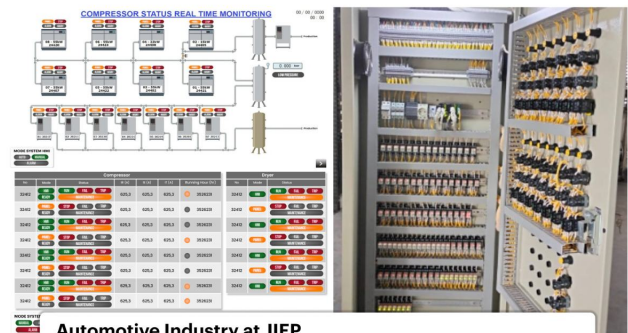

- Automatic control dust collector based on production demand
- Centralized real time web based monitoring and control
- Historical data logging

Automotive Component Industry at MM2100

ENERGY SAVING FOR AIR CONDITIONER

- Scheduled control of indoor and outdoor unit
- Centralized monitoring & control using Human Machine Interface (HMI)
- Historical data logging

Automotive Industry at JIEP

ENERGY SAVING FOR AIR COMPRESSOR

- Automatic and scheduled control of air compressor and dryer
- Centralized real time web based monitoring and control
- Historical data logging

FMCG Industry at Cikupa

PJU SOLAR PANEL SYSTEM

- Off grid PJU solar panel on existing PJU pole
- Custom design for backup 2x12 hours

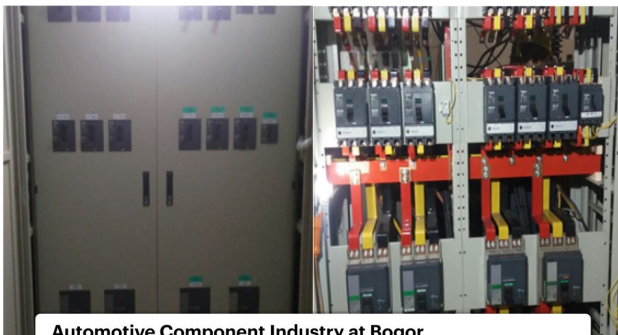

ELECTRICAL AUTOMATION

FMCG Industry at Cileungsi

PUMPS CONTROL FOR CHILLER SYSTEM

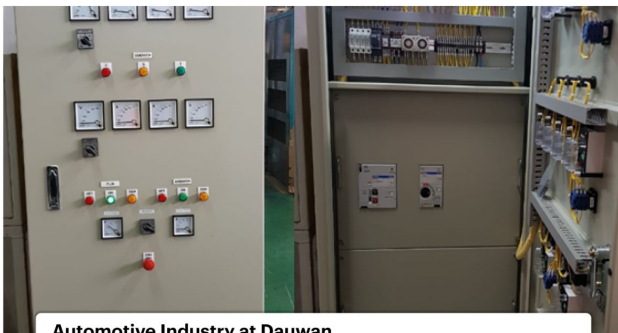

- Automatic control of supply and circulation pumps
- Closed loop design with temperature and pressure feedback

Automotive Component Industry at Bogor

LVMSDB PANEL RENEWAL & RETROFIT

- Design and install for LVMSDB distribution panel include busbar modification
- Retrofit for ATS AMF system

Automotive Industry at Dauwan

ATS AMF PANEL

- Design and install for automatic switch between PLN and genset
- Additional auto charging for genset battery

FMCG Industry at Cileungsi

MACHINE PLC RETROFIT

- Replacement of discontinued PLC and HMI
- Additional improvement for production process and audit compliance

NETWORK AND SURVEILLANCE

Automotive Component Industry at MM2100

FIBER OPTIC NETWORK ARCHITECTURE

- Design and built factory network as backbone for industrial IOT
- Redundant system

FMCG Industry at Cileungsi

CENTRALIZED CCTV COMMAND CENTER

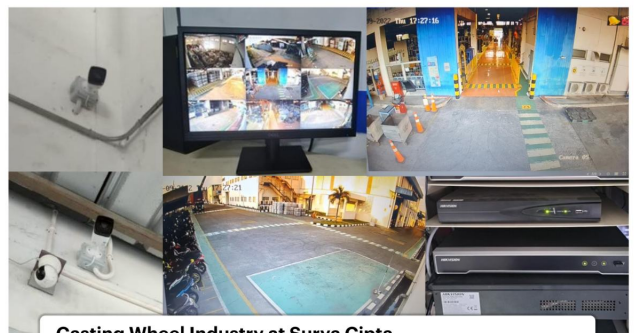

- Design and built CCTV system and command center
- Footage backup and playback with redundant
- Video Content Analytics (VCA) with alarm and email notification

Automotive Component Industry at MM2100

CCTV SYSTEM

- Replacement existing CCTV system
- Improve stability and quality of recording

Casting Wheel Industry at Surya Cipta

CCTV SYSTEM

- Expansions of existing CCTV system
- Improve stability and quality of recording

Certified Solution Partner of

BRONZE
System Integrator

A ROCKWELL AUTOMATION PARTNER

certified **Solution Provider**
